POWER UP

1. Make sure your Sega Genesis system is set up correctly.
2. Be sure that Control Pad 1 is properly plugged in.
3. Make sure the power switch is turned OFF. Place the Pocahontas cartridge in the slot and press it down firmly.
4. Turn the power switch to ON. You should see the Sega Title, then opening Pocahontas screens. If you do not get to the title screen, turn the power switch OFF and restart the game.

Warning to owners of projection televisions: Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

FOLLOW YOUR PATH

Welcome to the magical world of the Powhatans - a world where everyone lives in friendship and harmony with all of nature. But that will soon change because the English settlers are arriving and are ready to dig up and destroy every inch of this beautiful land in order to find gold.

One intelligent and brave member of the Powhatan tribe is Pocahontas, the beautiful daughter of the wise chief Powhatan. Pocahontas is in touch with her surroundings, in fact, she knows every tree, waterfall and wild creature in her forest home. Pocahontas' father has just told her that the young Powhatan warrior, Kocoum has asked for her hand in marriage. However, she doesn't want to marry Kocoum and believes another path lies "just around the river bend" for her. Pocahontas will soon find out what that path is.

Pocahontas befriends one of the English settlers, John Smith, and teaches him that nature is something very special that must be cherished and that his people must stop digging up and destroying the land. But one day when Pocahontas and Smith are together in the Enchanted Glade, Kocoum attacks Smith. During the attack, Kocoum is killed by a young settler and the tension grows between the Powhatans and the English settlers.

Then John Smith is captured and Chief Powhatan vows to kill Smith and attack the white men. In turn, Ratcliffe, leader of the English, orders an attack on the Powhatans. With war looming, both Pocahontas' homeland and her friend, John Smith, are in serious danger. Pocahontas runs to wise Grandmother Willow and asks for her guidance. With Grandmother Willow's help, Pocahontas discovers her path is to save John Smith and keep peace and harmony in her world.

You must help Pocahontas seek out the animal friends who will help her. They will reward the kind deeds of Pocahontas, by sharing their special powers with her. Run with the deer, swim and dive with the otters, climb trees with the squirrels, and more! All of these powers assist Pocahontas in saving John Smith and finding the path to peace.

TAKE CONTROL

D-PAD - Moves Pocahontas around

START BUTTON - Pause/Animal Powers Wheel

BUTTON A - Help Animals/Run Button

BUTTON B - Jump

BUTTON C - Switch From Pocahontas To Meeko

Pocahontas travels across the land of the Powhatan Indians. There are many things that may slow her down as she moves through the different areas. Listed below are the buttons on the Genesis Control Pad you will be using to move Pocahontas (and Meeko).

They are: The Directional Pad (D-Pad), Start, Button A, Button B and Button C.

Special Note: Buttons X, Y, and Z on the 6-button Genesis Control Pad are not used in this game.

D-PAD - This button is the main button that is used to move Pocahontas.

Press the D-Pad: Up, Down, Left or Right to move her in those directions. This works on land and in the water for Pocahontas (not Meeko).

Press the D-Pad: Left or Right to make her move in those directions.

Press the D-Pad: Up to make Pocahontas look up.

Press the D-Pad: Down to make her crouch. If Pocahontas is near a ledge when this is pressed, she will lower herself (safely) down.

When you have the power of the wolf, you can use this to sneak past enemies (without being seen).

BUTTON A - This button is used to allow Pocahontas to help others.

Press Button A to: Offer help to her animal friends.

Pick up baby birds. (Down + Button A)

Place the baby birds in their nest.

Once you have the power of the deer, if you press Button A Pocahontas will begin to run. Press button A again while she is running to make her sprint.

BUTTON B - Press this button to make either Pocahontas or Meeko jump.

START - Press this button to pause the action of the game and bring up the Animal Powers Wheel. The animals that are highlighted are those whose powers Pocahontas has gained. The animals that appear dimly lit are those whose powers she still needs to earn.

BUTTON C - Press this button to switch the control from Pocahontas to Meeko. You can do this during any portion of the game. It temporarily freezes the action where Pocahontas is and shifts the view to where you last left Meeko. Press this button again to switch back to Pocahontas. You can do this as often as you like.

This button also summons Flit to Pocahontas. Press Button C (as Pocahontas), while pressing Up on the D-Pad to summon Flit. He will point the way she needs to go.

Note: Flit will come up automatically if Pocahontas does not move for 10 to 20 seconds.

SPECIAL MOVES

Once you have earned the power of the bear (on the Animal Powers Wheel), you can press Button A to bring forth this ability. The power of the bear will frighten away one of the English settlers. Note: If you cannot frighten a settler with this power, you may need to either get Meeko to help you past him or use the power of the wolf to sneak by.

Use the D-Pad with the Jump button to guide Meeko's jumps better.

Press the D-Pad when you are near a rock or log for Pocahontas (or Meeko) to give it a push. Some rocks and logs may be too big for Meeko to move.

Hint boxes will appear in the game to guide you. If you wish to play the game without the hint boxes coming up, go to the Options screen before starting the game and select "Hints-Off."

NOTE: Pocahontas moves within the elements of her environment like the rocks, the trees and so forth. Try to get her to use as much of the natural world around her so she can see all of the available options.

There is no one set path to take. It may take you a shorter time to finish an act than someone else, but that may be because you chose a different path. Like Pocahontas, the path you end up following is your own. Some paths will be very challenging, but keep trying and you'll soon succeed!

THE CHARACTERS

POCAHONTAS

The daughter of Chief Powhatan is an intelligent, independent, courageous, playful and free-spirited young woman who knows every tree, waterfall, and creature in her forest home. She cherishes her people, the animals and harmony of her homeland.

MEEKO

This cute, mischievous raccoon is Pocahontas' constant companion. He offers her help along the way.

FLIT

This hummingbird is Pocahontas' self-appointed confidant and bodyguard. He shows up sometimes to prevent her from going places that might be dangerous for her to attempt reaching before she earns the animal power needed to get there. He also can be called upon to point the way for Pocahontas to travel.

GRANDMOTHER WILLOW

This wise spirit of an ancient tree gives Pocahontas comfort and guidance. Her words offer important clues!

JOHN SMITH

The English settler who befriends Pocahontas and learns that nature and the environment are things that must be cherished and protected from spoiling.

THE CHARACTERS, cont.

CHIEF POWHATAN

Pocahontas' father is a truly wise man who has the ability to learn as well as teach, be led as well as lead and the courage to choose the path of peace instead of war.

KOCOUM

Brave, strong and handsome Kocoum is a serious young warrior who is eager to drive the settlers away. He also considers himself a guardian of Pocahontas.

THE SETTLERS

Each settler has his own ambitions, hopes and dreams about what they will find once they conquer this New World. They are very different from the Powhatans and do not understand that nature is something beautiful that must be revered.

RATCLIFFE

The leader of the English settlers is a vain, power-hungry man who will do anything for power and riches.

PERCY

Ratcliffe's dog is spoiled and snooty. Meeko loves to play tricks on Percy.

POCAHONTAS' WORLD-THE PROLOGUE

Pocahontas' adventures begin in Virginia, before the arrival of the settlers. In this lush environment you will discover what her adventure is all about.

Seek out her animal friends of the forest. It is important for you as Pocahontas to relate to each of the forest animals. Many of them need your assistance and will repay you for helping them.

Her path is filled with adventure and many challenges. Some of the challenges are found in nature itself. For example, there may be a tall ledge that Pocahontas cannot jump high enough to reach, so you must find a way to use something in Pocahontas' environment to assist her.

If Pocahontas herself cannot move an object in the environment, then perhaps Meeko can give her a hand! Remember, the two of them must help each other through each level of the game in order for you to make it through to the very end.

The Prologue area of the game is designed to introduce you to the world of Pocahontas. Although you have the freedom to travel wherever you wish, you still must have certain skills to advance to new areas of the level.

Both Pocahontas and Meeko begin the game with a few skills, but when Pocahontas helps certain animal friends, she will gain new powers. These new powers will allow her to do things which she would not have been able to do before she earned them.

Seek out ways to get to every part of each level. Use all of Pocahontas' and Meeko's skills to get you where you need to go next. The major forest animals you will need to find in the Prologue are the deer and the otters.

Pocahontas begins the Prologue level with the following abilities: Walking, climbing (up and down), pushing (objects), and a short jump. Meeko can: Run, climb trees, jump, jump into Pocahontas' arms, push (small objects), and tread water. Meeko cannot swim. You must find ways for Pocahontas to get Meeko across all bodies of water, and keep the two friends together when you can.

SPECIAL NOTE: A map of a section of the Prologue area is featured on the poster that comes with this game. Use it as a reference for the Prologue to see some of the puzzles that you must solve.

ACT ONE

This Act begins at the long house of Chief Powhatan. Pocahontas and her father are discussing her relationship with Kocoum. Find a way for Meeko to enter the long house to listen in and find out what is going on. Meeko won't be allowed to just walk in the front door, so you'll have to find another way in.

Once you have left the long house area you will discover brand new areas to explore. The Enchanted Glade with Grandmother Willow is nearby as well as new forest animal friends who will need your help.

You may encounter several areas that appear to be dead-ends, but they are not! If you find that you cannot proceed further in this Act, it may mean one of two possibilities:

- 1) You have not gained an important animal power that you need in order to move further along.
- 2) There is a difficult puzzle you are facing that requires the teamwork of both Pocahontas and Meeko to solve. Look for secret areas and tunnels in which Meeko can discover surprises.

One of the most important forest animals you meet is in Act I. He is a wolf who can share a very special talent with Pocahontas — the ability to sneak past people without being seen or heard by them. Pocahontas needs this skill to get through several difficult areas that await her. To gain this ability, you must keep up with him as he runs by jumping, swinging and using all the abilities that Pocahontas has earned so far. The other animals of the forest that Pocahontas meets in Act I include a frisky squirrel and some fish.

There is also a special person for Pocahontas to meet in Act I. He is a stranger who has traveled many miles over the ocean on the ship, the Susan Constant. His name is John Smith.

Unlike her encounters with the animals of the forest, meeting John Smith changes Pocahontas' life forever. This unusual man is unlike anyone she has ever met before. She wishes to show him the beauty of her world.

ACT TWO

The settlers have built a fort and the drums of war have begun to sound. Pocahontas and Meeko need to explore the settlement and the settlers' ship to find out all they can about their plans. Are they going to live in peace with the Powhatans, or are they going to make war?

The puzzles that await you in Act II are a little more difficult than the previous level's puzzles. There are also new animals (with new abilities to share), that you will encounter as well. The most significant animal of this Act is the bear. It seems a bear cub has climbed too high in a tree for the mother bear to rescue. If Pocahontas can find a way to coax the cub down from the tree, the mother bear will share her ability with Pocahontas. This ability (the Bear Scare), will instantly frighten one of the settlers, even though he carries a gun!

The other animals in Act II that Pocahontas and Meeko encounter include an eagle, an owl and of course, Percy the dog. Note: Percy has no natural ability to share with Pocahontas, but he does, however, provide good sport for Meeko!

Don't forget, Pocahontas can move some pretty heavy things, and the objects around the settler's camp are no exception! Also, there are some interesting ways to move Pocahontas and Meeko within the strange environment of the camp and sailing ship.

After Pocahontas visits the settler's camp and the ship, the Susan Constant, you must guide her back to the forest to meet with John Smith. It is through him she learns about the possible dangers of a conflict between her people and his. But watch out, there is also someone else waiting to meet John Smith. His name is Kocoum, and he is concerned for the safety of Pocahontas and his people.

ACT THREE

Tragedy has struck the Powhatan Indians and John Smith is blamed for it. Chief Powhatan demands justice for the loss of Kocoum by ordering the death of John Smith and declares war with the settlers. The outcome of these actions would spell certain doom for the Powhatans and their land!

Pocahontas speaks with Grandmother Willow to discover her final destiny. She knows that trouble is brewing and doesn't know how to stop it. Use the words of wisdom from Grandmother Willow to help Pocahontas lead her people towards the path of peace.

"Mountain, help my heart be great", Pocahontas says, before taking the most challenging race she has ever entered.

It's now a race against time as Pocahontas hurries to save her people and John Smith. At this point in the game, Pocahontas has all the powers she needs. The animals will not give her any additional powers, but they will help guide her down the right path. Run slyly and swiftly with the wolf and deer; swim with the otter in the stream and soar with the eagle to make it back to the village before tragedy strikes again.

The quickest path may not be the easiest one for you to find. Remember, Pocahontas has all the powers she needs to get to John Smith before it's too late. If you are successful, she will save him and her people from destruction. But hurry, Pocahontas must get there before the sun rises.

SPECIAL ANIMAL POWERS

Listed are the animal powers that Pocahontas can receive in her adventures. Press the Start button to see the powers that you have collected. Remember, if you have not gained an animal's power, you will not be able to use it. But once you gain the power, it is yours for the rest of the game.

ANIMAL POWER GAINED BY POCAHONTAS

Deer	Run, sprint, jump further (if she's running), extra long jump (if she's sprinting and also has the spirit of the eagle)
Otter	Dive and swim
Bird	Land softly from a high jump (each feather gives this power)
Squirrel	Climb and swing from tree branches
Owl	Ability to see in the dark
Fish	Swim against a strong current
Bear	"Bear Scare" that frightens some of the settlers
Wolf	Crouch and sneak without being seen or heard and move under low obstacles
Eagle	Longest leap, (a leap of faith), and fall from great heights without getting hurt

SPECIAL NOTE: You may need to use an animal power more than once in the game to solve the puzzles and obstacles in your path. There is only a limit to how many times you can use the power of the bird. Count the feathers to see how much of this power you have collected. If the ability doesn't seem to help though, you may need to try a different solution.

OPTIONS, ITEMS & PASSWORDS

The Pocahontas Title screen features listings to start the adventure or to change the game's options and enter a password. Use the D-Pad to move Flit between Start Game and Options. Press the Start Button to go to the selected screen.

The Options Screen allows you to make the game the way you want to play it. Press A, B, or C to make changes to each option on the Controller. Move Flit to each option to select:

PASSWORD
SOUND TEST
CREDITS
HINTS ON/OFF
MUSIC ON/OFF
SFX ON/OFF

Press Start to lock in your changes and return to the previous selections to start the adventure.

The Password Screen allows you to enter passwords that you have earned from previous games. Be sure to write them down as you earn them so you won't have to play the level all over again. Passwords can be earned when Meeko collects berries. Each password is unique and allows you to keep all the items you collected the last time you played.

ITEMS

Along with Meeko collecting berries (for passwords), Pocahontas can collect items too. There are five pieces of her necklace that are hidden throughout the acts and there are feathers she can find as well. If you can find all five pieces of the necklace and win the race to the end of the game, you will see an extra special ending! Remember, both Pocahontas and Meeko can collect things.

HINTS AND SOLUTIONS

This section is for those of you who have encountered a little difficulty in solving the puzzles in the game. Read this section first (before you read the next one) and maybe this will help you out of a tight spot or two.

- Flit appears from time to time on screen to point the way if you get stuck.
- Be persistent! You may need to try special moves and maneuvers several times to master them. Your patience will be rewarded later in the game when these skills are ultimately challenged.
- When Pocahontas has the power of the bear, it's the thin settler she'll be able to scare.
- There is a health gauge for Pocahontas that shows up as a row of leaves at the top of the screen. Each time a leaf falls from the row, Pocahontas loses strength. When all of the leaves are gone, the game is over.
- Pocahontas will automatically pull herself up from a ledge that she has jumped up and grabbed.
- Meeko is always interested in munching berries. If you see bushes with berries on them, let him nibble some. Collect enough berries and you'll earn a Password!
- If Pocahontas cannot reach a ledge by a regular jump, she may need to stand on something to boost her higher. You can usually find a boulder in the background to help her. It just needs to be pushed into place.
- Logs come in handy for making rafts and bridges.
- In most cases, when you need Meeko, he can find his way to you.
- You may come across teeter-totters and lever and pulleys. You can spring Meeko into the air with a teeter-totter to allow him to get to a higher area that he can't reach by jumping.
- In Act III, the rising sun is used as a timer. Pocahontas must get to John Smith before the sun fully rises!
- The hint boxes that appear throughout the game can be turned off on the Options screens to give experienced players an extra challenge.

A LITTLE EXTRA HELP

PLEASE ONLY READ THIS SECTION IF YOU NEED TO! We want you to enjoy the thrills of discovering the solutions to each of the puzzles on your own. If you just can't seem to get past them, then go ahead and read this section.

PUZZLE #1 - THE ROCK

The first puzzle you encounter is how to get Pocahontas to climb up the side of a hill when she cannot reach the ledge. Use Meeko to climb up the nearby trees and jump to the ledge above her. Have him push the rock down to Pocahontas and she can use that rock to stand on to boost her higher. From the top of the rock, she can now jump and reach the ledge.

PUZZLE #2 - TEAMWORK MOVE #1

We mentioned before in the manual that Meeko can jump into Pocahontas' arms. From there he can jump to higher places so he can follow Pocahontas through the levels. You can use this trick to get him across shallow pools of water too!

PUZZLE #3 - THE HIGH DIVE

There is an area where Pocahontas needs to leap off of a cliff in a spectacular high dive into a refreshing pool of water. She needs to have the ability of the otter to perform this move. To gain the otter's power, have Pocahontas push the rock into the water that is blocking their water slide. Once she gains the otter's power, she will be able to swim too!
